Resolution #

ACTIVITY
1. Bridge 36 (Pick Line) was reopened on November 30th with a new deck and guard rail system. With these improvements this bridge should be good for the next 50 years.
2. The new roof has been installed on the former PUC shop on Pitcher Street.
3. The 4 way stop at the intersection of John Street and Elgin Street has been installed and Staff have already heard some favourable comments.
4. With the Otterville and Norwich Parades behind us, we have signage all ready to go for the Burgessville Parade on December 16th.
   Public Works spends 16-20 man/hours on each parade to set up and dismantle detours, set out barricades and send out road closure notices.
5. We had just 2 winter events that required service (sanding and/or plowing) during November.
6. With the mild weather our crew has stayed busy cutting brush, replacing culverts and grading roads.
